TIME AFTER TIME

At The St. Regis Bar Singapore, Time After Time invites you into two cities across five eras, where Singapore's thriving evolution and New York City's cultural milestones unfold side by side. More than a retrospective, it is a transportive lens of past, present, and future visions. Each cocktail reimagines a crystallised moment, mirrored by its dual city and alive with contrasting identities and sensations.

Welcome to Time After Time, where worlds collide and flavours spark.
